

Detailed Product Description

- 1.capacity : 2L
- 2.rotary speed (rpm): 10-180
- 3.vacuum level: less than -0.096 Mpa

rotary evaporator is used for condensation, distillation and menstruum recycle under negative pressure and constant pressure.

Feature:

- 1.Bath automatic lift and down
- 2.AC induction motor
- 3.bath material :SUS 304
- 4.temperature accuracy: $\pm 2^{\circ}\text{C}$

Model	XO-RE2
Evaporation flask (L)	0.5/1 29#
Receiving flask (L)	1 /35# ball type
Motor power(W)	40

Vacuum level (Mpa)	0.096
Speed rpm)	10-180
Evaporation speed (H2O)(L/h)	1.2
Power (V)	220
Size (Cm)	55*35*75
